

# jason pollux

Jason Pollux: a neosoul-electro Duo from Germany, consists of Sonja Trautmann (vocals, keys) and Michael Burger (synthesizers, beats). The band unites voice, the unique sound of an old Rhodes-Piano with analog synthesizers and sampled sound material. All handmade - no laptop.

The songs thematically explore the dynamics of escapism and the longing for a place to call home. The Duo doesn't hold back from depicting hauntingly vulnerable melancholy and trepidation in their songs as well as excentric outburst into vast electronic soundworlds and grooves.

Their live performances create a compelling and theatrical experience, while staying authentic and close to the listener.

Jason Pollux released their Debut-EP ‚Escape‘ in spring 2019 followed by a clubtour and festivals such as the Cologne Music Week.

They are currently nominated for the INES#Talent Showcase Festivals 2020 and will play Festivals such as Liverpool Sound City and c/o Pop as opener for GoGo Penguin.
